In view of the above amendments and the following remarks, examination of the application is requested.

The specification has been reviewed and revised to make a number of editorial revisions thereto. No new matter has been added by these revisions.

It is submitted that claim 5 includes the limitations previously set forth in claims 1 and 2, and has been drafted to recite that $n \geq 3$ and to include a number of editorial revisions.

In view of the above amendments and remarks, examination of the application on the merits is respectfully requested.

Respectfully submitted,

Piero MOLTENI
